

Name: Graham Date: _____

Native American homes/shelters - Research Project (mini)

The topic of my research is the: pueblos

The most significant characteristic of the pueblos is:
Made out of dirt, rock and straw.

One of the most important things I learned about the pueblos was:
When farming people didn't have the rain they stayed in a pueblo in the southwest.

One of the pueblos strengths was:
By using more mud it could fill the gaps in the wall to keep out bugs, wind and rain.

One of the pueblos weaknesses or limitations was:
The pueblos can't get very wet or they dissolve.
