Native American homes/shelters - Research Project (mini)

The topic of my research is the: Plank house.

The most significant characteristic of the plank house is:

They are made of redwoods or cedars trees because they are strong and long lasting trees.

One of the most important things I learned about the plank house was:

You take some planks from the top to change the temperature.

One of the plank houses strengths was:

Rain could not get in

One of the plank houses weaknesses or limitations was:

It wasn't portable unlike the tipis.
