

Name: Liam Date: _____

Native American homes/shelters - Research Project (mini)

The topic of my research is the: Igloo

The most significant characteristic of the Igloo is:
The snow, without the snow the igloo would fall apart a lot faster.

One of the most important things I learned about the Igloo was:
That the inside of the igloo can be 65^{F°} warmer than outside. Every thing in the igloo is made of snow and igloos are usually made where a lot of snow is.

One of the Igloos strengths was:
That the Igloo can stay up for 6 weeks.

One of the Igloos weaknesses or limitations was:
If you make a mistake then it could fall.
