Hello Parents!!

Another full week is in the history books!! What a full and great week it has been! I enjoyed seeing so many faces at the parent meeting and then we concluded the week with a visit from Ms. Mann and Buddy the therapy dog! That makes it a very full week! Among some of the great things this week...we actually all tackled a book project here in class. This will count toward the 5 total due by Oct. 11th.

Next week we have what should be a great full week with minimal interruptions prior to Labor Day weekend.

Several students are finishing up some of their project work with TinkerCAD lessons and three have already started their first 3D print...the medallion. This is ALWAYS an exciting time as the first prints are created and handed out. I look forward to printing and giving students their first creations. This will lead to more excitement and hopefully boost up a few students needing that energy to complete the lessons.

We are finally getting started with the science of weather. We experienced a slow start this week with the testing with NWEA, but now we are now started...and have no more testing for the next few months!!

I hope that everyone has a great weekend and gets some good rest and relaxation. Let's plan for a cooler week next week and some good work and experiences!

BOOK PROJECTS: 5 due or Reading Logs completed by Oct. 11. <http://mrbrantley.weebly.com/book-projects.html>
