Happy Thanksgiving Parents and Families!!

It seems like I just wrote a newsletter...less than five days ago...because I did!!

I hope that this break is a welcome rest from work, projects and all else school. I don't plan to do much of anything at school before Sunday. Time to rest my mind and body.

We will resume Monday Nov. 30 and dive into the final three weeks before the end of the semester and winter break. This will include printing many of the signet rings and probably one or two more in class projects. The last of the book projects will be a big focus so that everyone gets their five done in time. For many this will only be one or two more projects...so this shouldn't be bad.

We will wrap up Chp. 5 Division in Math. This should be a good finish...especially with the good daily assignments throughout. This will send us into Chp. 6 Multiplication and Division. I always like this chapter because we get to focus on the relationships and inverse operations. For many this is the perfect time to understand and "get" what's going on.

As we try to keep the learning process in full swing I have seen some great successes with Classcraft and some of the new online tools. Another resource that I look forward to introducing is Mystery Science. This has some great material and alignment to Indiana Standards (*I know that's not exciting to anyone but me*). So that adds another great resource that will be accessible at home (if needed) and hopefully interesting material. In a recent survey I found that this class does appreciate informational texts, non-fiction and historical and legend/myth based texts. This bodes well for a few mini projects and other mini research experiences that we will have in class.

Have a VERY HAPPY THANKSGIVING!!! Rest, relax and I will see students back at school Nov. 30!!

BOOK PROJECTS: 5 projects due by Dec. 18th. <http://mrbrantley.weebly.com/book-projects.html>
