Native American homes/shelters - Research Project (mini)

The topic of my research is the: puueblo

The most significant characteristic of the puueblo is:

~~I think the~~ most significant characteristic  
is that it is stacked  
and it the only indian house  
that is stacked

One of the most important things I learned about the puueblo was:

that it is made of Adobe  
which is clay and straw mixed  
together.

One of the puoblos strengths was:

they could make the ladders  
if enemies attacked.

One of the puoblos weaknesses or limitations was:

that it dissolves over time by  
rain.
