 Changes in Soil Literary Response Glass E-Studies Holitarod Iditarod Iditarod Recipes coming soonif he makes the wrong call Sunday!!) February 7th – Winter CarnivalCome one, come all!! Hello Parents, Another slightly broken weekbut only the one lost dayI'll take it!! We did accomplish quite a bunch this week! It's hard to quantify "a bunch" but for the purposes of reportingI'll try. We continued TinkerCAD lessons. For any of you that have seen at home your child working on the CAD lessonsthey are challenging. I think I have reviewed and shown the class the money clip lesson 4 times this weekits really tough. Severa students completed their 12 lessons and even completed their medallions (see pictures below). These were the first printable project, and something that many were looking forward to! They are turning out pretty great!! We also worked through coordinate plane battleship (the game is still going). The students are beginning to realize that the manipulation numbers is practically a gameand they are getting frighteningly good at manipulation We also began another fun math strategies for accruing points and accounting in their headstough stuff, but as a gameFUN!!! Next week we will get back to research. Webquests and research will be a running theme for a while as we start into Iditarod season. This will launch the Iditarod for our class for 2014. We will be picking racers and each student will be responsible for composing a short biography of their racer and something about their racing career. Many resources will be sharedI promise. When the race begins we will track and follow each racer and monitor their progress. Over the next weeks we will continue TinkerCAD projects. Students will continue to work independently on their projects only when the finish do I review and then approve to print. The first	Reading: "Meet Maycira Costa" by Nora Brook Focus Skills: words with r-controlled vowels: /âr/ air, ear /îr/, eer; and commonly misspelled words, possessive nouns and possessive adjectives Spelling Unit: 21 (See Below) Vocabulary Lesson # 5-4 (Review): area, combine, composition, firm, ground, mixture, sand, surface, water,		Math: (Whole Class Instruction) Unit 7 Division Meanings 07-00 Division Meanings Introduction 07-01 Number Sense: Division as Sharing 07-02 Number Sense: Understanding Remainders 07-03 Number Sense: Division as Repeated Subtraction 07-04 Number Sense: Writing Division Stories

Be safe this weekend. I hope that weather doesn't become an issue for next week, but things aren't looking too good on that front (no pun intended).

Have a Great Weekend and we will see you Monday...hopefully on TIME !!
